**Information**

ditures for 89 of the state's 95 counties. The web address is: [www.comptroller1.state.tn.us/TAG/](http://www.comptroller1.state.tn.us/TAG/)

The information is compiled from the annual audit reports done by the Comptroller's Division of County Audit. Jim Arnette, the division's director, said revenue and expenditure data from the last four fis-

cal years is now available at the site, which is called Transparency and Accountability for Governments (TAG) in Tennessee. Arnette said several years' worth of data will be kept available for access through the TAG Tennessee archives.

The TAG Tennessee site includes information about school departments, but not other agencies, component units or enterprise funds that are accounted for separately from the counties' main budgeted operations.

Six counties are audited annually by private certified public accounting firms rather than the Comptroller's office, so their financial information isn't available on the site at this time. Those counties are: Davidson, Ham-

ilton, Knox, McMinn, Shelby and Washington.
