the officer must be in the wrong location.

When the officer told Hubbard there were three other subjects that went inside while one stayed outside, Hubbard told the officer he was helping a buddy move and the other two had loud mouths and that is why someone probably called the police.

Officer Jonathan Yates, LPD advised the officer Bobby was on the banned list of Loudon Public Housing Authority. Officer Yates arrived on the scene and Hubbard had no means of transportation and would have been a hazard if left in

public.

During a search the officer found a baggie with a capsule identified as Vyvanse, a schedule II controlled substance that he has no prescription for. Officer Bryan Blakney LPD made the arrest.

Bobby Alan Hub-

Dead Man's Gun Misplaced

On September 10, 2012 my little and only brother lost his life to a gun shot wound to the chest.

Before or after his death his rolled up money with a rubber band around it in his left pocket was misplaced. He also had a small .22 pistol, one of two he owned, which was misplaced from his right pocket. His pistol could have been traded or sold on September 10th or shortly after.

I would like to pay the person that may have it \$200 to get it back. No questions asked. I don't want to know your name or how you got it. I would like to have it back cleaned of all fingerprints unloaded with the bullets in a bag.

Also, I do not have a Private Investigator following anyone. I have already told all what the Lord has told me from day one. There is nothing which has been concealed which will not be revealed and no secret which will not be known.

In other words, you can hide your secrets from people for a little while, but God sees All and He will bring it in to the light for all to see.

From June to August Ronnie Jaynes actions were a repeat of almost 14 years ago. The same as then, he may have told his friends that if he died in a certain way and it looked like an accident not to believe it. If he has told any of his friends something like that within the last three months of his life Please Call his oldest sister Tammy at 865-986-6018. If you have the pistol please call the same number. It was part of my brother for many years and I would like to have it back.

On a final note, my brother Ronnie had a heart like our mother. He loved his family and his friends. He would go a step farther and tell us he liked us with a smile and we all loved him more than he knew.

Thank You from Big Sister of Ronnie Ray Jaynes, Tammy. Please call if you have any information 865-986-6018.

Meeting

Cumberland River. Specifics of the restrictions are not known at this time.

Frank Fiss, TWRA

Assistant Chief of the Fisheries Division, gave an update on tail-water management along the Watauga, South Holston, and

Caney Fork rivers. He presented a summary of recent public meetings that were held to identify any resources issues.

Chuck Yoest, TWRA Wildlife Division Big Game Coordinator gave a report on the recently completed fall turkey season and the fast start to this year's deer hunting season. About 2,700 birds were harvested during the turkey season which ran from Oct. 13-26. The figures were almost identical to the 2011 fall totals.

The deer hunting season, which began with the archery segment in late September, has seen an increase in harvest numbers. As of early on Nov. 30, about 117,000 deer have been harvested, an increase from the 110,000 through the same time period last year. Gun season for deer began on Nov. 17 and will continue through Jan. 6, 2013.

Yoest presented an agency recommendation which adds the Pennsylvania counties of Adam and York to the Chronic Wasting Disease (CWD) restrictive zones. He also asked to remove the statewide restriction on New York and decrease the restriction to only include Madison and Oneida counties. The commission approved the recommendations.

A status report on the Cummings Cove Wildlife Management Area was presented by David McKinney, TWRA Chief of Environmental Services. The 1,200 acre Cummings Cove WMA is located on Aetna Mountain in Hamilton and Marion counties. The area has been heavily used by Off-Road Vehicles which are causing en-

vironmental concerns.

During the last year, TWRA has participated in a public meeting to answer the public's questions on why Cummings Cove WMA has regulations that prohibit ORV use. TWRA also solicited public comments over a 76-day period, from March 1, 2012 to May 15, 2012, in an effort to determine what the public expected in the way of recreational opportunities on the WMA. In addition, TWRA conducted several site visits to Cummings Cove WMA with various state and federal agencies including TDEC and USDA Forest Legacy.

The commission viewed a recently aired video of CBS evening News segment that was filmed in Montgomery County on White Nose Syndrome (WNS). Bill Reeves, TWRA Chief of Biodiversity, said an artificial bat cave was built by the Nature Conservancy on TWRA land in Montgomery County to combat WNS. WNS is a fungus infection threatening the populations of bats that live in caves in North American.

The artificial bat cave project is designed to attract bats and hopefully be used in a study to evaluate ways to treat and prevent WNS.

The TFWC set its next meeting for Jan. 17-18, 2013. The first meeting of the new year will be held on a Thursday-Friday.

Horoscopes

cuit. It's not so hard!

Capricorn 12/22-1/19
Things could get really dicey at work today - most likely thanks to a competitor. Still, be on guard when dealing with anyone on the job, as you never know where today's energy could manifest.

Aquarius 1/20-2/18
You're feeling somewhat larger than life right now, so make sure that you're taking great strides and showing the world just what you're made of. Things are looking up for you and yours!

Pisces 2/19-3/20
It's way too easy to get swept up in other people's dramas today, but if you stand firm and remember who you are, things should go well for you. They should get back in touch with you later!

Aries 3/21-4/19
You should push yourself a little harder and see if you can get more exercise than usual today -- your body craves action! It may be as simple as taking the stairs or as complex as joining a new gym.

Taurus 4/20-5/20
Try not to be too overbearing with people who make simple mistakes -- you can tell them what's what without declaiming it from on high! People are more inclined to listen if you come down to their level.

Gemini 5/21-6/21
Your brain is famous, and your great energy

today helps you to make the most of it. Just apply yourself to one big problem and see where your ideas lead. Others are sure to join in.

Cancer 6/22-7/22
Think ahead and see if you can get yourself into a new situation that feels a little better. Things may start looking up sooner than you'd expect, so it's a good idea to start off in a few new directions at once.

Leo 7/23-8/22
Let go of that humility and just revel in your success! You've found a new way to make things happen, and you should be proud of what you have achieved. Others are certainly proud of you!

Virgo 8/23-9/22
You need to roll up your sleeves and get to work -- on some new project helping others. You are at your best saving the day, and you should have several opportunities coming up soon.

Libra 9/23-10/22
If your energy starts to drag -- and it might -- make sure that your friends are handy. At least one of them is certain to have the answer for nearly any question you may have, and it costs you nothing!

Scorpio 10/23-11/21
You're rolling through your day like nothing could go wrong -- until it does. In fact, nearly everything may go wrong at the same time, but you can rise to the challenge if you're prepared.
