scenario where we are thrown back into an age where modern civilities are no longer used.

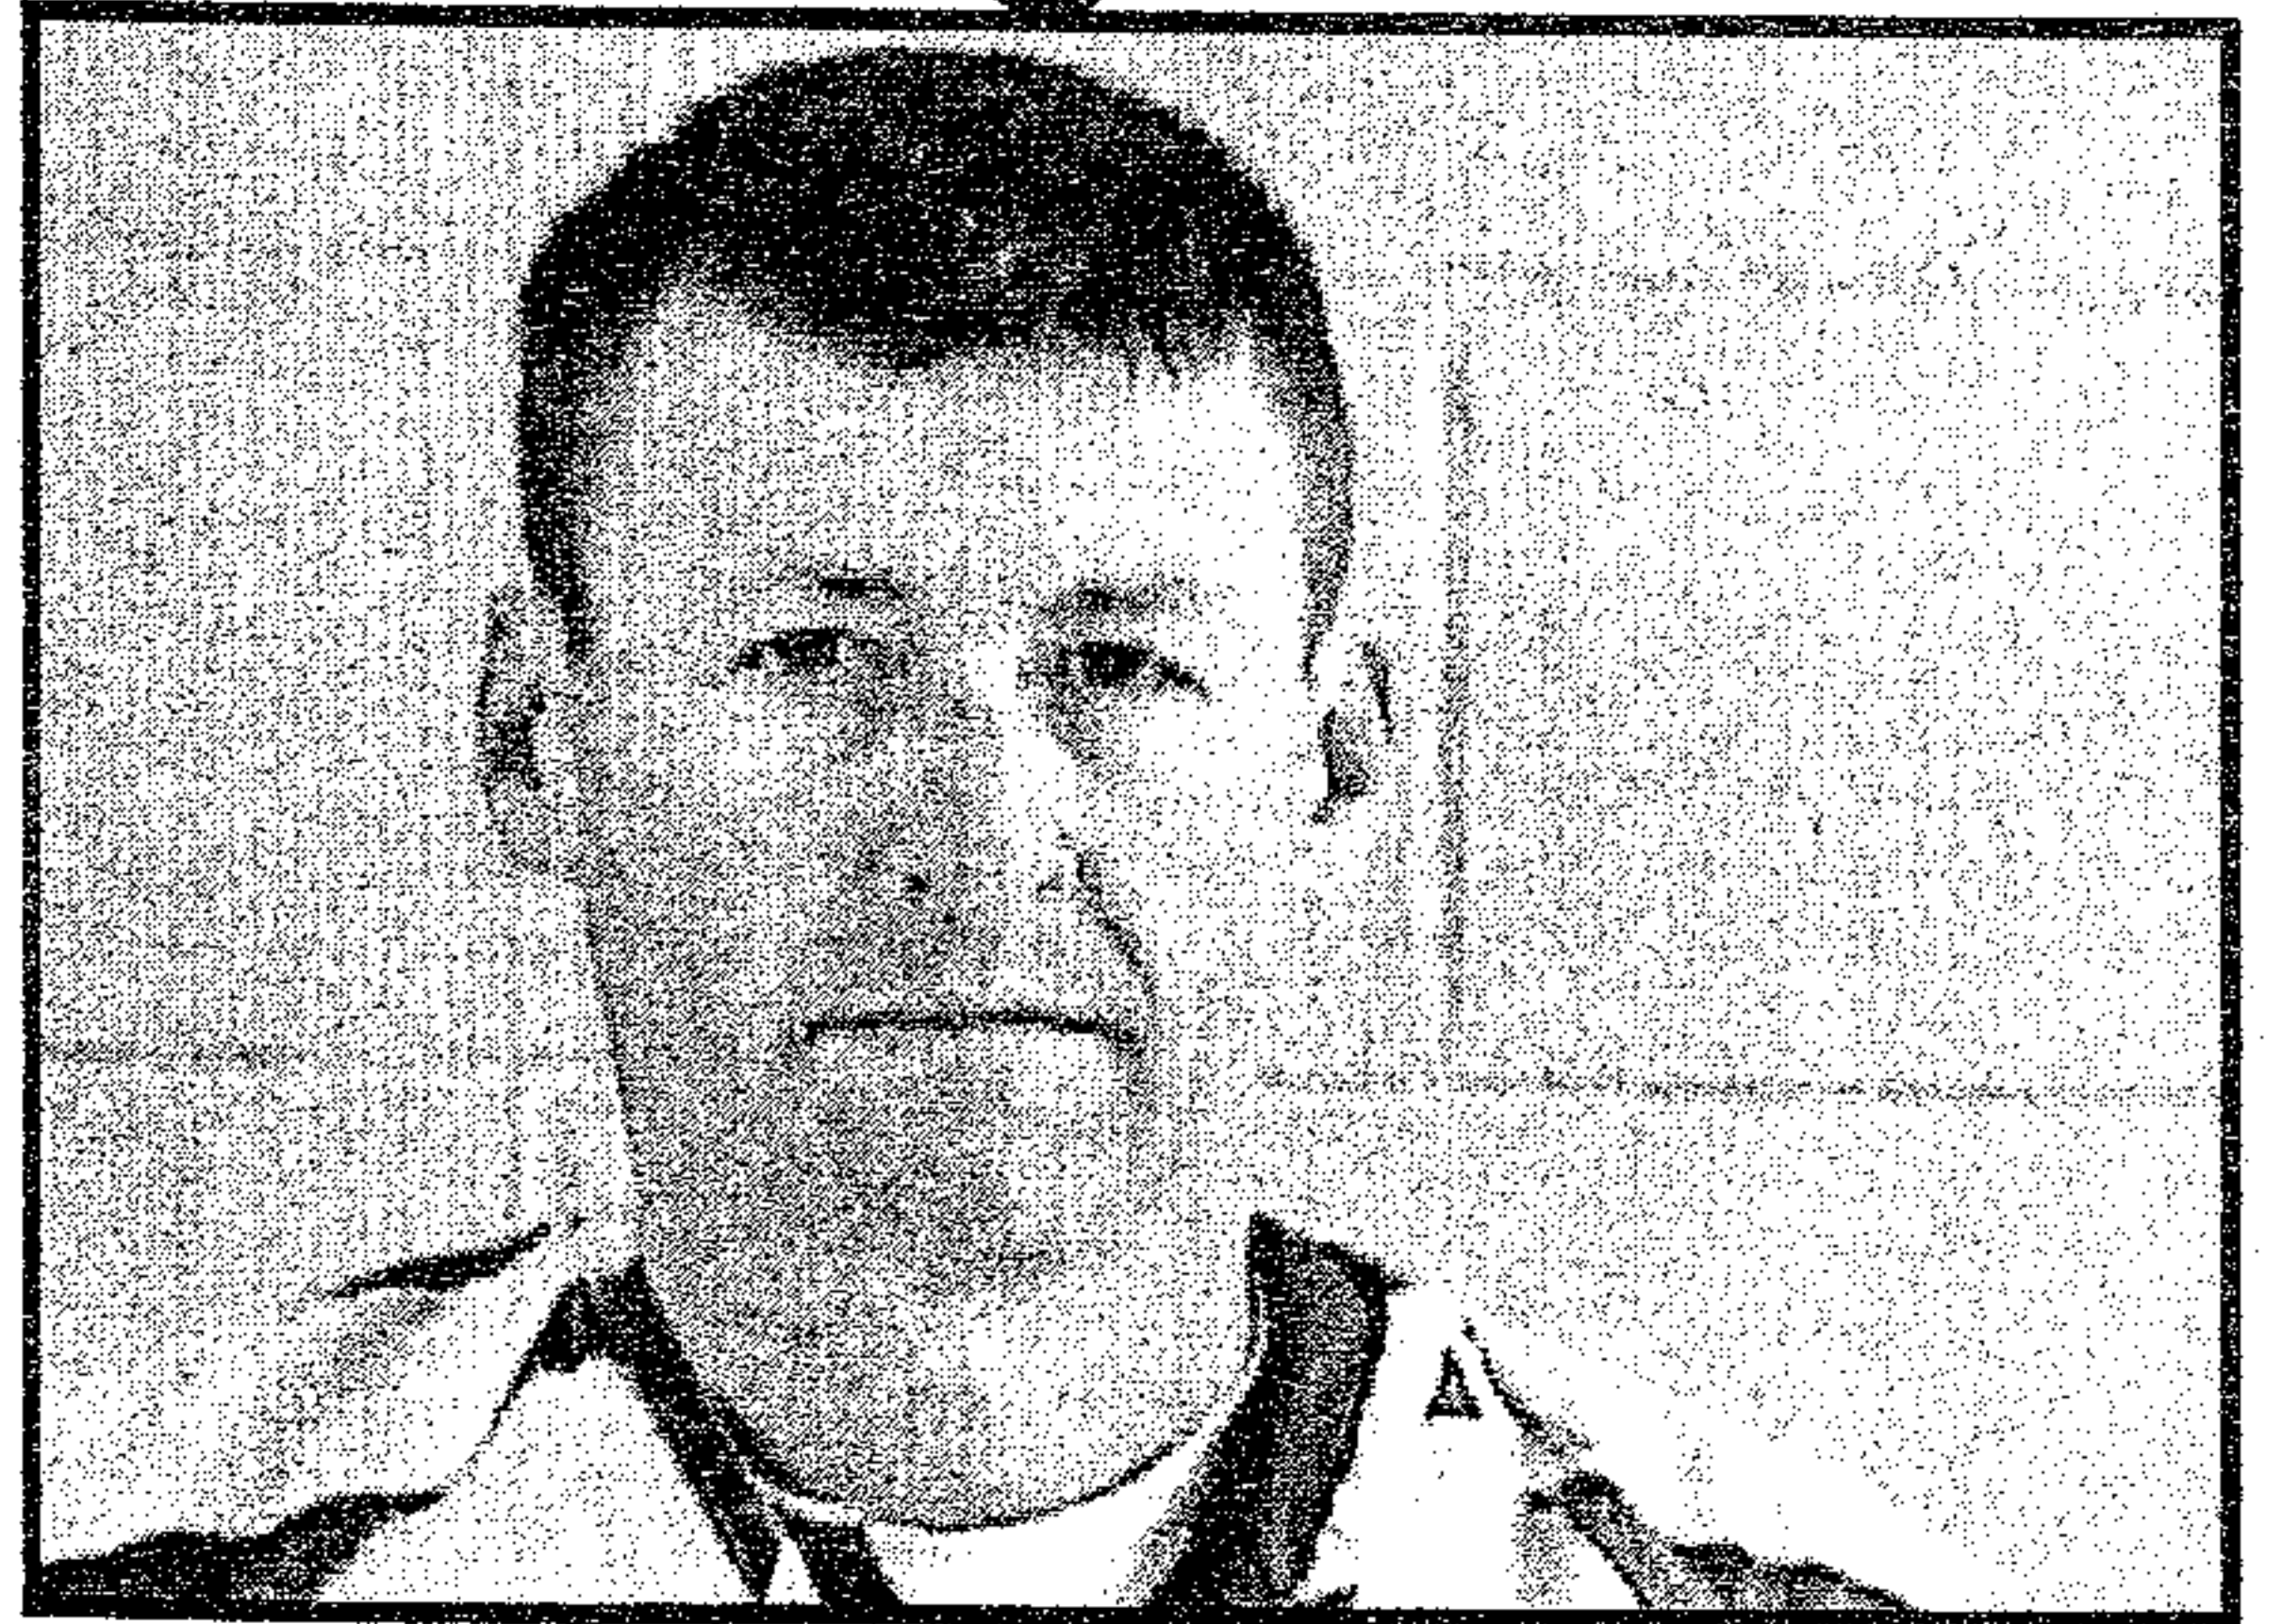

In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the Unit-

As for you, the anointing you received from him remains in you, and you do not need anyone to teach you. But as his anointing teaches you about all things and as that anointing is real, not counterfeit—just as it has taught

you, remain in him. — 1 John 2:27

ed States, than according to the rules of the common law.

This was written into the Constitution due to the fact that most judges, even at the time when "Americans" were moving in to the colonies in the early 1700's; judges would still rule in favor of whichever King was in power at the time, even if said ruling was incorrect. This amendment gives rights to a jury to make decision - which as we all know, can still be overridden by a

judge but happens rarely.

One important thing to note here, having nothing to do with a trial by jury, is inflation. \$20 then is hundreds of dollars today and this amendment has been amended to state any Federal case must exceed \$75,000. This being said, it is important to know this right owed to you by the written word that elected officials deem to follow. If you are ever caught in a situation where you feel it necessary to bring someone to trial

(sue them) or you are being brought to trial, (being sued or committal of crime) you must remember you have a right to a trial by jury should the limit exceed (then) \$20.00.

Quite a boring blog this week, but extremely important knowing our past history shows judgement and punishment without procedure. Let us not forget who we were and who, if left without rules, we could become again.
