Morbidity and Mortality Weekly Report

MMWR news synopsis for October 13, 2016

Breast Cancer Incidence and Mortality Among Black and White Women — United States, 1999–2013

Breast cancer death rates are decreasing among all women, but racial differences remain that need to be addressed and prioritized. Access to quality care and the best available treatments for all women diagnosed with breast cancer can help to address the disparities. Newly released data show that while overall breast cancer death rates are decreasing, there are racial differences — particularly

Verse of the Day

No temptation has seized you except what is common to man. And God is faithful; he will not let you be tempted beyond what you can bear. But when you are tempted, he will also provide a

way out so that you can stand up under it. — 1 Corinthians 10:13

Christopher Isbill, 23, Jordan Road Georgia, was charged with Man/Sell/Del/Resale Sch. VI.

Whitney Tate, 21, Jordan Road Georgia, was charged with DUI, and Man/Sell/Del/Resale Sch. VI. see

Deputy Robbie Lane LCSO, observed a blue Nissan Altima traveling south on I-75 at

a high rate of speed. Deputy paced the Nissan at 90 mph in a 65 mph zone. Deputy conducted traffic stop with the Nissan at the 77.6 mile marker. Deputy made contact with the driver Ms. Whitney Tate and the passenger. Mr. Christopher Isbill. Deputy could smell a strong odor of Marijuana coming from inside the vehicle. Deputy

asked if there was any Marijuana in the vehicle and Mr. Isbill reached under the front passenger seat and handed a large plastic bag of Marijuana and then a small plastic bag with Marijuana. Deputy asked Ms. Tate to step out

of the vehicle at which time she was unsteady on her feet. Deputy asked Ms. Tate when was the last time she smoked and she advised about 1 hour ago. Deputy asked Ms. Tate to perform field sobriety

among women over age 50. There was a faster decrease in breast cancer death rates for white women (-1.9 percent per year) than for black women (-1.5 percent per year) between 2010 and 2014. However, among women under age 50, -death rates decreased at the same rate. We are hopeful that this indicates that white and black women under 50 are beginning to benefit equally from appropriate and timely breast cancer treatments and will continue to assess if these differences can also improve for women over 50.

HIV Testing and Outcomes Among Hispanics/Latinos — United States, Puerto Rico, and the U.S. Virgin Islands, 2014

Despite representing 16 percent of the popu-

lation, Latinos account for almost 25 percent of all newly diagnosed HIV infections in the United States. According to a new CDC analysis, Latinos accounted for nearly 23 percent of people reached by CDC-funded HIV testing efforts. Additionally, approximately 60 percent of Latinos were linked to HIV medical care within 90 days of diagnosis, which is below the 85 percent goal of the updated National HIV/AIDS Strategy. Regional disparities persist as the percentage of Latinos referred and linked to HIV medical care, interviewed for partner services, and referred to HIV prevention services were lower in the South compared to other geographic regions. Among Latinos tested, gay and bisexual men had the highest percentage of HIV diagnosed (2 percent). If current HIV diagnosis trends persist, the estimated lifetime risk of diagnosis is 1 in 48 among Latino men and 1 in 227 among Latina women. In 2014, the rate of HIV diagnosis among Latinos was approximately

three times that of non-Hispanic whites (18.4 vs. 6.1 per 100,000 population). The data illustrate the need for improved prevention strategies that address the cultural factors and diversity of Latinos in order to reduce the impact of HIV among the population.

Unmet Needs for Ancillary Services Among Hispanics/Latinos Receiving HIV Medical Care — United States, 2013-2014

In the United States from 2013-2014 there were substantial unmet needs for ancillary ser-

vices among Latinos receiving outpatient HIV medical care. The most common unmet needs were for services that support retention in HIV medical care and assist with day-to-day living, including dental and vision care, food and nutrition services, transportation, and shelter or housing. Ancillary services — such as non-HIV medical care, subsistence services, and HIV support services — can improve the health of people living with HIV and help them achieve viral suppression. An

analysis of Medical Monitoring Project data found an estimated 24 percent of Latinos receiving outpatient HIV medical care reported unmet needs for dental care and 21 percent reported unmet needs for eye or vision care. Additionally, 15 percent of Latinos reported unmet needs for food or nutrition services; 9 percent had an unmet need for transportation assistance; and 8 percent reported unmet needs for shelter or housing services. The analysis also

Charged

David Moses, 38, Loftis Hill Road Englewood, was charged with DUI.

Deputy Kevin Dailley LCSO, observed a 2008 silver Hummer H3 going 83 mph in a 55 mph zone at Highway 411 and Thompson Bridge Rd with the use of moving radar. Upon traffic stop at Highway 411 and Schultz Ln Deputy came in con-

tact with the driver David Moses, which had an odor of an alcoholic beverage coming from the vehicle. Mr. Moses stated he had not had anything to drink, however was disoriented while reaching for his registration and insurance. He was asked to step out of the vehicle where he agreed to do field sobriety, at this time the odor of an alcoholic beverage was about

his person all while his eyes being bloodshot. Field Sobriety was performed where Mr. Moses performed poorly, he was taken into custody for Driving Under the Influence where he agreed to give blood at Fort Loudon Medical Center. The vehicle was towed by Money-Maker's however due to Mr. Moses having an expensive Hoyt bow and Stoeger shotgun in the vehicle they were

retrieved for safe keeping. This all occurred without incident.

MMWR ctd. from pg. 4

identified the highest prevalence of unmet needs of Latinos by age group, with some unmet needs, such as shelter and housing services and HIV peer group support, being higher for those age 18-39 than those age 50 or older. Many of the reasons Latinos

have unmet needs for ancillary services reflect not knowing how to get the services, perceived ineligibility for obtaining services, and denial of services. HIV case managers can play an important role in connecting Latinos living with HIV to needed services and resources.

sex offender

Brent Matheson, 49, Hwy 72 North Loudon, was charged with Violation of Sex Offender Registry.

Sgt. Scott Newman was notified of a possible sex offender staying at the Americas Best Value Inn on Hwy 72 in Loudon. Officer's went there and spoke with a witness, who stated that Brent Matheson was her boyfriend and had been staying there in the hotel room with her for quite some time. Matheson is a convicted sex offender and is required to comply with

the restrictions of the Tennessee Sex Offender Registry. Specifically any Sex Offender from another county or jurisdiction who establishes a primary or secondary residence or a physical presence in a different jurisdiction is required to report to the Police or Sheriff's Department in the new jurisdiction within 48 hours. Matheson did not do this. According to witness, Matheson would stay during the week with her and would often go back to Monroe County on the weekends. Mon-

roe County is where Matheson reports on a monthly basis and is listed on the Tennessee Sex Offender Registry as homeless. Inside the hotel room they shared there were several items belonging to Matheson that were evidence of him residing there. A large amount of His clothing was there and put away in drawers and hung up. There was a certificate of completion for some type of work related training with Matheson's name on it hung on the wall. Said happened in Loudon.

The above subject was arrested on 10-11-2016 at approximately 1200 in the parking lot of Monterey Mush-

room. Officer's did have an active warrant in hand. All the above actions did happen in The City of Loudon.

speeding ctd. from pg. 2

test and she agreed. Ms. Tate had lack of smooth pursuit and distinct Nystagmus at maximum deviation in both eyes. Ms. Tate could not keep balance and started to soon during instruction phase. Ms. Tate stepped of line and missed heel to toe several times. Ms. Tate took 12 steps and stopped and then turned and took 14 steps back during walk and turn. Ms. Tate was swaying and placed her foot down several times during one leg

stand. Ms. Tate was placed under arrest for DUI. Mr. Isbill advised they bought the marijuana in Knoxville. Mr. Isbill was placed under arrest for possession of SCH VI. Deputy Ketner transported Mr. Isbill to the Loudon County jail. Deputy read Tennessee Implied Consent and Ms. Tate consented to Blood draw. Deputy transported Ms. Tate to Fort Loudon ER and her blood was drawn and then transported Ms. Tate to the Loudon County Jail. The Nissan was towed away from the scene by Malones. Deputy weighed the Marijuana Approximately 1.60 oz
