DONATION DESCRIPTION
City of Loudon Fire Department received extrication equipment

worth \$9,720. The awarded equipment will improve the department's rescue capabilities for victims in motor vehicle accidents. According to a January 2016 study by the U.S. Fire Administration (USFA), only 58 percent of registered fire departments in Tennessee have vehicle extrication capabilities.

ABOUT FIREHOUSE SUBS PUBLIC SAFETY FOUNDATION

In 2005, the Firehouse Subs founders established the Firehouse Subs Public Safety Foundation with the mission of providing funding, life-saving equipment, and educational opportunities to first-responders and public safety organizations. Through the non-profit 501(c)(3), Firehouse Subs Public Safety Foundation has given more than \$24 million to hometown heroes in 46 states, Puerto Rico and Canada, including more than \$1.3 million in Tennessee.

IN-RESTAURANT FUNDRAISING INITIATIVES

Each restaurant recycles leftover, five-gallon pickle buckets, available to guests for a \$2 donation to the Foundation. Donation canisters on register counters explain the non-profit's mission and collect spare change, while the Round Up Program allows guests to "round up" their bill to the nearest dollar. All funds raised benefit the Foundation.

Tullahoma Airport Business Park - \$280,000 - Clearing of approximately 26 acres of wooded area and drainage improvements

"With the help of the Rural Economic Opportunity Act and these Site Development Grants, communities receiving these funds will be one, two and three steps closer to investment and growth. I am excited to see our rural communities have the opportunity to submit sites and compete on an even bigger level than before," Amy New, TNECD assistant commissioner of

rural development, said. The Site Development Grant is part of the suite of Select Tennessee programs and works in conjunction with the Site Certification program.

An advisory committee of staff from TNECD, the Tennessee Valley Authority, the Tennessee Department of Environment and Conservation, the Tennessee Department of Transportation and the U.S. Department of Agriculture selected these 18 sites from a pool of 28 applications. The application process was competitive with grants awarded based on benefit to the community, economic impact, leveraged resources, and ability to implement a successful project.

Each application was supported by the community's senator and representatives in the Tennessee General Assembly.
