The more health-related social needs a woman faces, the less likely she is to get a mammogram

A new CDC Vital Signs study finds that only about 65% of women ages 50-74, with three or more health-related social needs, are up to date with their mammograms.

Breast cancer causes more than 40,000 deaths in women

each year in the United States, and screening mammograms have been shown to reduce breast cancer deaths.

Health-related social needs are adverse social conditions that can be barriers to a person's health or health care. Examples include food insecurity and lack of access to reliable transportation. These are sometimes called social determinants of health.

The Vital Signs

study, based on CDC researchers analyzing data from the 2022 Behavioral Risk Factor Surveillance System, finds that the more health-related social needs a woman has, the less likely she is to get a mammogram. Clinicians can play a key role in helping to remove barriers women face in getting

### Trespasser

Samuel McNabb, 63, Browder Hollow Road Lenoir City, was charged with Criminal Trespass, and Public Intoxication.

Officer Parmer LCPD, was dispatched to W Broadway in reference to a prowler complaint. The complainant/victim, advised central dispatch that an unknown male had come onto her porch, without the consent of the owner, and sat down. After sitting for a couple minutes, the male looked above him and observed a security camera. Upon observation of the security camera, the male stood up and took the cam-

era. Upon arrival, the officer made contact with the victim, confirmed that the security camera had been taken, and watched the video that the camera recorded of the incident. After watching the video, the officer was able to get a description of the male and advised other LCPD units to be on the lookout. While in the area, Officer Robinson located a male, later identified as 63-year-old Samuel McNabb, matching the description he had given, behind Hi-Tech Auto Body, W Broadway. The victim advised the officer that she did not wish to pursue charges on Mr. McNabb, she just wanted

her camera returned. The officer arrived at Hi-Tech Auto Body, and made contact with Mr. McNabb, who had the camera in his pocket and was clearly under the influence of narcotics. Mr. McNabb was sweaty, although approxi-

mately 50 degrees outside, and had pin-point pupils. Mr. McNabb was subsequently placed into my custody and transported to the Loudon County Jail, where he was charged with Criminal Trespass and Public Intoxication.

**Charged**

Jackie Jones, 65, Grove Street Loudon, was charged with Simple Possession x3, and Poss. of Drug Para.

Tobias Tuck, 46, River-view Road Loudon, was charged with Simple Possession x2, and Child Support Attachment.

According to the report, Deputy Allen LCSO, arrived at Wade Road West for the report of a suspicious vehicle. As the deputy pulled up the driveway, he found two white males, one seated in the passenger seat of a Nissan Titan, and the other getting in the driver's seat. Both men began moving around rapidly in the vehicle. The deputy commanded both parties to show him their hands and stay still. The deputy approached and explained why he was there. The deputy identified the passenger as Jackie Jones and the individual on the driver's side as Tobias Tuck.

Mr. Jones stated he was at this address to visit his cousin. Mr. Tuck stated he had come to see the neighbor who had borrowed his sander. They both stated the truck had run out of gas and they were waiting for a ride.

Upon my finding that both parties had a revoked license, they stated an unknown third person who had left had driven them to this address. During the deputy interactions with Mr. Jones, he not-

ed he did have constricted pupils, slurred or slow speech, and trouble maintaining his balance, leading him to believe that he was under the influence of a drug or intoxicant. Mr. Tuck was found to have an attachment and was placed in custody. Mr. Jones admits the Nissan Titan is his and agreed to allow a search to be completed. Mr. Jones seemed to be very concerned with a case of sprite.

The deputy looked into the open box and saw a purple and silver pill container. Upon opening the container, the deputy found one green-color round pill consistent with Hydrocodone and one orange-color pill that appears to have been broken into quarters consistent with Suboxone. Mr. Jones stated he did not know these pills. Upon searching the truck an elastic tourniquet and a capped ICC syringe were found. Mr. Jones was taken into custody at this time. While searching Mr. Jones a Marijuana cigarette was found in his pants pocket.

As Mr. Tuck was searched one half of a green pill consistent with Hydrocodone and one blue oval pill consistent with Alprazolam were found in his pocket.

Both men were transported to the Loudon County Jail. The syringe was photographed and properly disposed of in an appropriate sharps container.

**PUBLIC NOTICE****WATER SYSTEM FLUSHING PROGRAM**

The Lenoir City Utilities Board (LCUB) and Lenoir City Fire Department will be conducting our semi-annual water distribution system wide flushing program per Tennessee Department of Environment & Conservation Water Quality Control Requirements. The Flushing Program will occur for LCUB customers on Sunday, April 14, 2024, from 6:00 p.m. until 2:00 a.m. thru Saturday, April 20, 2024, until 3:00 p.m. The program goals are to identify problems in the water system and ultimately have them corrected. When fire hydrants are flowed, iron deposits in the water lines become agitated. This may cause a brown discoloration to the water in the area which is being flushed. This condition is only temporary and will normally correct itself in a number of hours. During this period of flushing, LCUB recommends that you flow your cold water prior to use to determine if there is any discoloration. While the water is still safe for consumption, we recommend not laundering white clothes without first testing the water for discoloration. If your water is discolored, it will clear up on its own under normal usage over a period of time. It is also best to limit the use of your hot water until the water flows clear as this will keep the iron deposits from going into your water heater. You may also notice a drop in water pressure during these times; however, the water pressure should return to normal within a short period of time. If you continue to experience difficulty with your water pressure or continue to have discoloration of water on Monday, April 29, 2024, please contact LCUB at 1-844-OUR-LCUB (687-5282) to report the problem.

**Wanted**

Randy Brewster, 29, Gaston Road Lenoir City, was charged with Mfg/Del/Sale or Poss. of Meth, and Assisting other Agency.

County officers were attempting to locate a person of interest (Randy P. Brewster 2nd) in regards to a possible theft on Gaston Rd. Officer Eldridge and Officer J. Espinoza LCPD located a Chevy Colorado (992BCPC) in the Tractor Supply parking lot that matched the description of the vehicle Brewster was driving. Dispatch did advise officers before hand that Brewster had a Full Extradition Warrant and was wanted by the U.S. Marshalls. Officers went inside the Tractor Supply and located Brewster and placed him in custody without incident. The Marshalls were notified and did advise that they would pick Brewster up. While searching Brewster, Officers did locate

2.44G of Methamphetamine in his inside jacket pocket. The vehicle was released to his father and Brewster was transported to the Loudon Co Jail.

**DUI for LC Man**

William Clinton, 35, Bon Street Lenoir City, was charged with DUI, and Violation of Implied Consent.

Officers were dispatched to US Highway 321 North regarding an unconscious male sitting in the driver seat of a gray Honda Accord. Upon arrival, the officer contacted the vehicle matching the description of the complainant. When approaching the vehicle's driver side door, the officer observed William Andrew Clinton, unconscious in the driver seat of said vehicle. After observing the keys in the ignition and Clinton sleeping at the wheel. The officer woke Clinton, ordered him to turn off, and step outside the vehicle. During the investigation,

Clinton advised, he consumed Heroin approximately two or three hours prior to our interaction. Thus, he willingly agreed to perform a series of SFST's. The following are Clintons clues of impairment: Lack of smooth pursuit, Distinct and Sustained Nystagmus @ maximum deviation from both eyes during the HGN. He stopped while walking, stepped off the line x2, used arms for balance, and

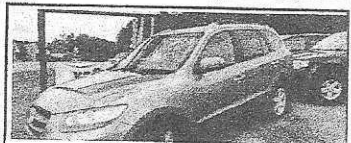

counted the wrong number of steps during the walk & turn. Clinton swayed while balancing and put his foot down during the One Leg Stand test. Consequently, William Andrew Clinton was placed under arrest for driving under the influence. Officers on scene read the TN Blood and/or Breath Consent Advisement to Clinton. However, he refused to provide a blood sample for chemical testing.
