Serena Collins, 44, Homeless Loudon, was charged with, Mfg/Del/Sale or Poss.

of Meth, Poss. of Drug Para., and Assisting Other Agency. Officers with the Lenoir City Police Department were dispatched to the Inn of

Lenoir in reference to a possible domestic situation. Upon arrival officers went upstairs to room 241, they knocked on the door and a male opened the door with a marijuana joint in his hand and placed it a few inches under Sgt. Ketner's nose. Officers then asked Serena Collins if we could enter the apartment due to a possible domestic and we could also check for weapons and any other people. Ms. Collins gave consent to enter, and they did. Upon entry to our left was a small bag tied into a knot with approximately five grams of a green leafy substance believed to be marijuana. Ms. Collins was then asked if there were any more illegal narcotics inside of the

bedroom to which she stated "yes, it was in her purse." We asked what she had, and she stated she had methamphetamine in her purse along with a pipe. Officer Robinson asked her if he could search her purse and she said yes, after a search of her purse he did locate the illegal narcotics which was approximately three grams of a white crystal-like substance believed to be methamphetamine and the pipe. Ms. Collins also stated she possibly had a Violation of Probation out of Greene County, and it was confirmed. Ms. Collins was then placed into custody and transported to the Loudon County Jail without further incident.

Marvin Pacay, 28, Ashland Avenue Knoxville, was charged with Public Intoxication.

Officer G. Butler LCPD, was dispatched to Ramblin Acres' Trailer Park Lot in reference to a suspicious person knocking on doors and believed to possibly be intoxicated. Upon arrival, the officer located that subject in front of lot standing beside a White GMC SUV bearing TN registration 284 BMYZ. The officer made contact with that subject who was then identified as Marvin Pa-

cay, when beginning to speak with Marvin he immediately observed a strong alcoholic odor emitting from Marvin's person and that he did have bloodshot and watery eyes as well. Upon asking Marvin about if he knew where he was at currently and if he lived at the residence he was located in front of, he made mostly incoherent statements at which point the officer also observed Marvin to have lethargic speech when trying to explain why he was at the residence. Marvin then advised that he was trying to go back to Knoxville

and that he also didn't live at Lot despite being parked beside there. During the investigation, numerous open containers of alcohol were observed in the floorboard and in the cupholder of the vehicle which was registered to Marvin although the keys were not found in Marvin's possession at that time. The listed offender did admit to having consumed at least three beers, at which point he was asked to perform SFST's. The officer then attempted to conduct HGN

on the above offender which Marvin was unable to follow instructions on due to his level of intoxication and language barrier. Due to the aforementioned, and that Marvin Pacay would be a danger to himself or others if left alone and that the offender was under the influence of a controlled substance in a public place he was subsequently placed into custody. Marvin Pacay was then transported to the Loudon County Jail without further incident.

minors online. Once Allen identified the minors, he enticed them over social media and texting apps to engage in unlawful sexual activity and to send nude images of themselves engaged in sexually explicit conduct. In two instances, Allen paid the minors for nude images of themselves, which Allen later emailed to himself using the minor's name as the subject line of the emails. Allen also sent sexually explicit images of himself to minors using social media. In at least one instance, Allen met a minor in person at the restaurant where Allen worked. Allen

added the minor to one of his social media accounts. Later that night, Allen communicated with the minor over social media. Law enforcement learned of those messages and, with consent from the minor's parents, assumed the minor's identity on social media two days later. That same day, Allen was arrested at a park in Kingston, TN, after arriving with the intent to meet the minor.

U.S. Attorney Francis M. Hamilton III of the Eastern District of Tennessee and Special Agent in Charge Joseph E. Carrico of the Federal Bureau of Investigation (FBI) made the announcement.

FBI and the Tennessee's Ninth Judicial District Attorney General's Office investigated the case that led to the indictment and subsequent conviction of Allen.

Assistant U.S. Attorneys Jennifer Kolman and William A. Roach, Jr., represented the United States at trial.

This case was brought as part of Project Safe Childhood (PSC), a nationwide initiative launched in May

2006, by the Department of Justice to combat the growing epidemic of child sexual exploitation and abuse. Led by the United States Attorney's Offices and the Criminal Division's Child Exploitation and Obscenity Section, PSC marshals federal, state, and local resources to locate, apprehend, and prosecute individuals who sexually exploit children, and to identify and rescue victims. For more information about PSC, please visit [www.justice.gov/psc](http://www.justice.gov/psc).

**CDC Awards Over \$176 Million to Strengthen U.S. Public Health Infrastructure and Workforce**

the Centers for Disease Control and Prevention (CDC) announced more than \$176 million in funding to support 48 public health partners to strengthen the public health system in the United States. This funding enables these partners to support state, local, and territorial health departments, tribal organizations, academic, and private sector partners to improve their ability to serve the public and positively impact health outcomes. Recipients span various sectors, public health specialties, and population groups, bringing diverse expertise needed across public health.

"CDC's public health partners are critical to building trust with communities and providing the essential services and capacity needed to face health threats," said CDC Director Mandy Cohen, M.D., M.P.H. "Today's announcement demonstrates the agency's commitment to building the strong, resilient public health system the nation needs to protect health and save lives."

As part of the National Partners Cooperative Agreement, the recipient organizations will receive the \$176 million in funding for the first year of

a 5-year-cycle. This funding will help partners increase the knowledge, skill, and ability of the public health workforce to deliver essential services, improve organizational and systems capacity and capability building to address health priorities, and advance the nation's public health infrastructure and performance.

"By working together with our valued partners, we can build a resilient public health system capable of addressing evolving challenges," said Leslie Ann Dauphin, PhD, Director of CDC's Public Health Infrastructure Center. "These awards will help build a strong public health infrastructure with enhanced ability to detect and control diseases, promote healthy lifestyles, and provide essential healthcare services to all communities."

CDC's goal with the National Partners Cooperative Agreement is to fund organizations that have the capability, expertise, resources, and national reach to support public health infrastructure and workforce needs. The funding mechanism began in 2008 and since that time, CDC has awarded more than \$2.5 billion in funding to more than 70 public health partners. CDC continues to collaborate with a wide variety of important partners, both funded and unfunded.
