CDC Warns of Salmonella outbreak linked to bearded dragons

A CDC investigation notice regarding a multistate outbreak of Salmonella infections has been posted: <https://www.cdc.gov/salmonella/cotham-06-24/index.html>

Key Points:

CDC has received reports of 15 Salmonella illnesses linked to bearded dragons across 9 states. Four people have been hospitalized and no

deaths have been reported.

60% of sick people are children under 5 years old. Bearded dragons are not recommended as pets for children younger than 5, adults aged 65 or older, and people with weakened immune systems because these people are more likely to get a serious illness from germs that reptiles carry.

Bearded dragons

can carry Salmonella germs in their droppings even if they look healthy and clean.

You can get sick from touching your bearded dragon or anything in its environment and then touching your mouth or food and swallowing Salmonella

What You Should Do:

see CDC pg. 5

Chelsey Coker, 27, Sunnyside Road Philadelphia, was charged with Public Intoxication.

Deputy Davis LCSO, responded to Old Lee Highway, in reference to a report of an unwanted guest. The complainant advised a white female wearing a black shirt with black and white pants was on drugs on his property. Upon arrival, the deputy observed a white female matching the description given by the complainant later identified as Chelsey Coker walking down Old Lee

Highway. While speaking with Chelsey, the deputy observed multiple clues of impairment. Chelsey had constricted eyes with resting nystagmus, grinded her teeth, anxious, and began to have conversations with individuals who were not present on scene. These behaviors led me to believe she was possibly under the influence of a stimulus such as methamphetamines. Chelsey advised she smoked 5 dollars' worth of meth. From the behaviors and statement given above, the deputy believe Chelsey was under the influence of a controlled substance

and was an endangerment to herself and others. The complainant advised her presence was annoying and asked to have her trespassed from the property. Chelsey was taken into custody and transported to the Loudon

County Detention. In the sally port of the jail, Deputy Pratt located a used syringe in Chelsey's bag which was shortly after disposed of in a sharp's container. This incident occurred in Loudon County Tennessee.

Wash your hands, play safely, and keep things clean.

Make sure children younger than 5 years old avoid contact with your bearded dragon and older children wash their hands after touching or feeding a bearded dragon.

Have a dedicated enclosure for your bearded dragon. Don't allow bearded dragons to roam in the same spaces where your baby or young children crawl and play.

What Businesses Should Do:

Educate customers about how to stay healthy around bearded dragons.

Learn more about how to protect your customers and employees from Salmonella infection and other diseases shared between animals and humans.

About Salmonella:

Most people infected with Salmonella develop diarrhea, fever, and stomach cramps 6

hours to 6 days after being exposed to the bacteria.

The illness usually lasts 4 to 7 days, and most people recover without treatment.

In some people, the illness may be so severe that the patient is hospitalized.

Children younger than 5, adults 65 and older, and people with weakened immune systems are more likely to have severe illness.

If you have questions about cases in a particular state, please contact that state's health department.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Whether diseases start at home or abroad, are curable or preventable, chronic or acute, or from human activity or deliberate attack, CDC's world-leading experts protect lives and livelihoods, national security and the U.S. economy by providing time-

ly, commonsense information, and rapidly identifying and responding to diseases, including outbreaks and illnesses. CDC drives science,

public health research, and data innovation in communities across the country by investing in local initiatives to protect everyone's health.

Horoscopes

der a lucky star, Gemini. Try to trust the ones you love, because they might not appreciate having to deal with your anxiety. Don't forget that they also know how to fend for themselves. They, too, have had to adapt to this world we live in.

Cancer 6/21-7/22

You're an eccentric person, Cancer. Yet you also feel the need to be loved and feel the approval of those around you. It isn't always easy to think differently from other people or to feel completely different. In order to be accepted, you must help them understand you.

Leo 7/23-8/22

Your altruism and ability to listen to others will greatly influence the day, Leo. Someone close to you is having difficulties and doesn't know how to explain the problem. This person needs you and knows that you're the only one who can help find a way out.

Virgo 8/23-9/22

The day belongs to you. The celestial movements encourage you to think about your future. Don't be afraid. With your usual self-confidence and dynamism, you're in the best position to have a head start. Your Virgo nature will be in control of your actions and you can rest assured that this period in time will be a favorable one for you.

Libra 9/23-10/22

There's a radical change taking place in the Zodiac, Libra. The changes in the economy and society seem to suggest that now is the time to think about how your actions impact the lives of your loved ones, community, and society at large.

Scorpio 10/23-11/21

Scorpio, the atmosphere of the day gives you the impression that there could be a lot of changes waiting to unfold in your personal life. Most of them will concern your relationships. Today you could feel as if you've just changed your star sign. Take the time to open up and listen to what the stars might reveal to you.

Sagittarius 11/22-12/21

You're the type of person who loves knowing a lot of different people, Sagittarius. You feel that you must help your friends communicate so that they have a better forum in which to express themselves. You're good at bringing out the best in others and helping them find a solid footing in the present, despite your love of the past.

Capricorn 12/22-01/19

You should make more of your own decisions, Capricorn. Don't let others have so much control over your life. When in a relationship, for example, you tend to let your partner dominate. You seem to no longer want to be in charge of any initiatives with regard to your joint life.

Aquarius 1/20-2/18

You are very interested in technological breakthroughs and innovation, Aquarius, especially if it has some benefit for individuals. Since you also concern yourself with social issues and subjects like psychology and spiritual therapies, you realize the im-

portance of progress in these areas for the future.

Pisces 2/19-3/20

You're a reasonable, generous person, Pisces. Your altruism plays a big part in your life. This is why your friends will be amazed to see you express a lot of personal desires now. When you think about it, everything is getting clearer.

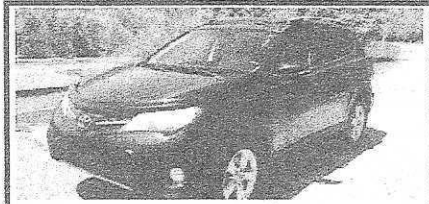

Aries 3/21-4/19

Today, you'll need to come up with the answer to an important question, Aries. What do you really want? Events might compel you to choose between your current way of living and a more stable life.

Taurus 4/20-5/20

Your calm will be put to the test today, Taurus. Try not to fall into this trap. You should try to show people that you're a thoughtful person and your past experiences have given you wisdom. You don't necessarily have to respond to aggression. However, you shouldn't forget about your own point of view.
