CDC Data Shows Over 70 Million U.S. Adults Reported Having a Disability

CDC released the annual update to the Disability and Health Data System (DHDS), providing quick and easy online access to state-level health data on adults with disabilities. The latest data, from the 2022 Behavioral Risk Factor Surveillance System (BRFSS), reveal that more than 1 in 4—over 70 million—adults in the United States reported

ed having a disability in 2022.

For the first time, the 2022 BRFSS collected data on experiences with Long COVID, defined as symptoms lasting three months or longer that the person did not have before COVID, to help us better understand the relationship between disabilities and Long COVID. Of particular concern is the finding that Long COVID

symptoms were more prevalent among people with disabilities (10.8%) than among those without disabilities (6.6%).

While Long COVID can occur in anyone who gets a SARS-CoV-2 infection (the virus that causes COVID-19), data show that some people or groups of people

see CDC pg. 5

Verse of the Day

[The word of the Lord came to Ezekiel and said: "This is what the Sovereign Lord says to the land of Israel...] Prepare chains, because the land is full of bloodshed and the city

is full of violence."

—Ezekiel 7:23

It's time to finally apply the knowledge you've accumulated and come to recognize the truth, Leo. Perhaps you've been sitting on

Damage
Christina Stone, 50, Whitehorse Road Knoxville, was charged with Theft of Property, and Vandalism.

Deputy Harrison was dispatched to Lake Forest Drive in reference to vandalism and theft. Once on scene, the deputy spoke with the complainant /victim, who stated a couple Christina Stone and a male had been recently evicted from the property and had destroyed and stolen items while moving. While walking around the back side of the property, the deputy observed grey tubing used to house copper wiring scattered around the rear of the residence and off to the

right side. The victim stated he last saw the piping intact on the home sometime during the day on 9-11-23.

The copper wire providing power to the shed on the right side of the property had been stripped and stolen. Once on the right side of the home where the AC unit was located, the deputy observed the top to be unsecured and copper wiring and pieces missing from the unit.

The victim stated he recently had the unit fixed and valued the loss of the copper wire on the back of the home and the components to the unit to be approximately \$12,000. The shed that sits next to the home had a bro-

ken window as well as wood items taken with an unknown value. Once inside the home the access to the heating and air controls near the kitchen had been tampered with and the fridge valued at \$1,200 had been stolen. Multiple outlets throughout the home had been pulled out of the wall and tampered with in an attempt to pull the wires. Brian stated the offenders had lived at the residence for 7 years and had left the residence on this date at approximately 6 a.m.

He did not observe anyone else helping the couple move on this date. The new address the two are believed to be living at is Creswell Drive, Knoxville, TN.

The victim does wish to prosecute.

Wanted

Donita Ward, 49, Ivey Avenue Lenoir City, was charged with, Theft of Property x2.

Deputy Brockwell LCSO, ran a tag on a vehicle that was displayed on a gold Pontiac sedan. When the deputy ran the tag (tag # 295BLHT) it came back to a Mazda tan in color. Deputy Brockwell initiated a traffic stop on the vehicle and came in contact with Donita Ward, the driver, and the passenger. Both subjects provided the deputy with their name and date of birth to run through dispatch. The deputy asked Ward to step out of the vehicle to get more information about the vehicle having the wrong tag. Ward then gave him consent to search the vehicle. While searching the vehicle,

dispatch notified the deputy that Ward had 2 active warrants out of Loudon County, TN for felony theft. The deputy then placed Ward under arrest. The passenger did not have a valid driver's license and the vehicle was towed by Malone's wrecker service from the scene. The deputy then transported Ward to the Loudon County Detention Facility. This did happen in Loudon County, TN without further incident.

Charged

Ethan Duke, 25, Ford Road Lenoir City, was charged with Aggravated Criminal Trespass, and Public Intoxication.

Deputy Brockwell LCSO, arrived at Ford Road for a wreck with no injury. The deputy spoke with the homeowner/complainant, who wants to remain anonymous, and he stated that a car pulled into their driveway with front-end damage. The car was a 2015 GMC Acadia (TN registration #

250BLNC). Deputy Jackson and Brockwell responded to a reckless driver call on July 16, 2024, at approximately 2249 where we could not locate the vehicle. The complainant at the time described the vehicle as a GMC Acadia and provided the same registration as the one found on the scene. The family of the offender, Ethan Duke, arrived on the scene. Deputy Jackson and Brockwell spoke with the family members, and they stated that no one has heard from Duke since July 16, 2024, at approximately

1930. His dad stated that at that time Duke was on the way to a comedy club to tell some jokes. His mom stated that they saw his location on Life 360 and came to the location it showed him. The last location Life 360 gave was at the above address on Ford Road on July 16, 2024, at approximately 2250. The brother stated that Duke always drinks when he goes to the comedy club and that he has been dealing with stress since his wife was about to have their second child any day. Duke's mother looked inside of the vehicle and located his phone and other personal belongings.

We gathered more information to start a missing person report and searched the area for Duke. Cpl. Wallen arrived on the scene and contacted EMA 5 for a drone so we could search the area further. While searching for an extended period, we observed a male walking down

Ford Road and identified him as the missing person, Ethan Duke. While speaking with Duke, there was a strong odor of an alcoholic beverage coming from his person. Duke was then detained for further investigation. Another individual, arrived on the scene and asked if we were looking for someone. He then stated that he woke up for work and found an unknown male sleeping on his couch who was not supposed to be there (later determined to be Duke). Duke told him that he was at a comedy club and had been drinking. The male told him to leave the residence and that is when we contacted Duke. Duke was then taken into custody for public intoxication and aggravated criminal trespassing. Duke was transported to the Loudon County Detention Facility. This did happen in Loudon County, TN without further incident.

CDC
are at higher risk of developing Long COVID. Some people with disabilities may be more likely to get very sick from COVID-19, or other respiratory viruses, because of underlying medical conditions, congregate living settings, or systemic health and social inequities.

CDC continues to collaborate with clinicians, public health partners, and other federal agencies to better understand the impacts of Long COVID, more generally, and, given the data, better identify and support the needs of people with disabilities. CDC continues to recommend that vaccines are

the best protection against the potentially serious outcomes of COVID-19.

Additional DHDS findings Older adults reported a higher disability prevalence (43.9% of people aged 65 years and older) compared to other age groups.

When examining disability status by race/ethnicity, the groups with the highest prevalence (both 38.7%) identified as American Indian or Alaska Native and Other/Multirace.

CDC has state profile fact sheets that provide an overview of disability in each state, including the percentages and characteristics of adults with and without dis-

abilities. Click on any state listed here to view that state's profile.

These findings underscore the fact that people with disabilities are a large part of every community and population. Many of us know, or are, someone with a disability, and disability inclusion is beneficial for all. As we com-

memorate the upcoming 34th anniversary of the Americans with Disabilities Act on July 26, it's important to remember disability is not a health outcome; it is part of the way people experience life, such as hearing, seeing, moving, processing information, and caring for oneself.

Horoscopes

the facts while contemplating their meaning. It's now time to get this information out into the open.

Virgo 8/23-9/22

When it comes to issues that require real thinking, be careful of letting someone else take control. You might have a rather lazy attitude in this department, Virgo, and it could be tempting to simply let someone else do the thinking for you. This attitude is apt to lead you down the wrong path for you.

Libra 9/23-10/22

There's likely to be a powerful force at work trying to manipulate the way you think about a certain situation, Libra. Be conscious of the source of your facts. It could be that someone is giving you tainted information so you'll act in a way that is favorable to his or her plan.

Scorpio 10/23-11/21

Don't second-guess yourself today, Scorpio. It could

be that you're wavering so much about a decision that even after you make it, you hesitate to follow through with it. Once you make up your mind about something, stick with it. Have confidence in your own mental process.

Sagittarius 11/22-12/21

Other people may try to wield their power even when it isn't their place. This is one time when people may try to show off their IQ by offering random facts that don't offer anything useful to the situation at hand but just serve to prove their knowledge of esoteric trivia.

Capricorn 12/22-01/19

Once your brain gets hooked on something, Capricorn, you're likely to take it to the extreme. Be careful of overworking yourself in a certain issue that requires a more rational, temperate attitude. You may get into trouble if you insist on going off the deep end. Don't tackle issues you aren't ready to handle.

Aquarius 1/20-2/18

Your brain is likely to be

working overtime, Aquarius. Things were going along just fine until you suddenly ran into an unexpected snag that kept you from where you want to be. It's as if the hamster wheel you've been running on suddenly jammed.

Pisces 2/19-3/20

Try not to get too wrapped up in the mental side of things, Pisces. Perhaps you're trying to work everything through in your mind. You'll find that there are strong forces outside your own trying their hardest to manipulate your thinking.

Aries 3/21-4/19

It's possible that you've been so emotional about a certain issue that you've taken it way too far, Aries. Fortunately, your reasoning has finally caught up with your feelings. Now it's time for a reckoning. Give your brain a chance to sort things out and bring the situation back into equilibrium.

Taurus 4/20-5/20

You may experience a transformation in your thinking.

It's bound to affect every aspect of your life, Taurus. By always questioning, you work through difficult issues that require a constant reshuffling of viewpoints. Feel free to open yourself up to new ways of thinking as you dismiss old ways that no longer serve you.

Gemini 5/21-6/20

You may be overwhelmed by an onslaught of communication from someone you didn't expect to hear from, Gemini. It could be that this person suddenly puts a monkey wrench in your plans. It's important to adapt and allow for the constant changes that are bound to come your way.

Cancer 6/21-7/22

Someone might feel obligated to give you their two cents even if you didn't ask for it, Cancer. Be careful not to dismiss this information without giving it proper consideration. This knowledge comes to you for a reason, and it's possible that it's the very piece of information you need now in order to complete the puzzle.
